

Celsia REACH 205 SVHC Compliance Statement

January 20th, 2020

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) is a European Union Commission (EUC) Regulation on chemicals and their safe use. The REACH regulations became effective on June 1, 2007 and will be phased in until 2020.

REACH establishes specific duties and obligations on a business in the European Union (EU) which manufactures or imports a substance or article that includes a "substance of very high concern" (SVHC) in concentrations of more than 0.1% w/w. A substance which is listed on the "Authorization List" published by the European Chemicals Agency (ECHA) (Annex XIV of the REACH regulations) cannot be manufactured or imported in the EU after a fixed date unless the ECHA authorizes the use of the substance for a specific use or uses. As of January 16, 2020, there were 205 substances on the SVHC list and 43 substances on the Authorization List.

Candidate List: <https://echa.europa.eu/candidate-list-table>

Authorization List: <https://echa.europa.eu/authorisation-list>

Further, the use of substances listed in Annex XVII of the REACH Regulations are banned in all articles or substances produced or imported in the EC except to the extent that the use complies with the specific restrictions contained in Annex XVII.

Celsia Inc. ("Celsia") and its wholly owned subsidiary, Celsia Technologies Taiwan Inc. ("Subsidiary"), certify that all parts, components and finished products supplied at present, or to be supplied hereafter, are free or less than threshold of the 205 Substances of Very High Concern (SVHC) and free of the 43 substances listed in the Authorization List.

Both Company and Subsidiary will endeavor to appropriately update or modify this REACH Compliance Statement should any changes occur in the composition of its products or the REACH regulations, including the addition of any substances to the SVHC Candidate List, the Authorization List or Annex XVII of the REACH regulations.
