

RoHS Compliance Statement

April 29, 2025

Celsia Inc. certifies that all custom heat sinks and associated components manufactured, supplied, or designed by our company are compliant with the European Union Directive 2011/65/EU (RoHS 2) and its amendment Directive 2015/863/EU (RoHS 3), which restricts the use of certain hazardous substances in electrical and electronic equipment (EEE).

The restricted substances and maximum allowable concentrations by weight in homogeneous materials are:

- Lead (Pb): 0.1%
- Mercury (Hg): 0.1%
- Cadmium (Cd): 0.01%
- Hexavalent Chromium (Cr⁶⁺): 0.1%
- Polybrominated Biphenyls (PBB): 0.1%
- Polybrominated Diphenyl Ethers (PBDE): 0.1%
- Bis(2-ethylhexyl) phthalate (DEHP): 0.1%
- Benzyl butyl phthalate (BBP): 0.1%
- Dibutyl phthalate (DBP): 0.1%
- Diisobutyl phthalate (DIBP): 0.1%

Where applicable, Celsia's products make use of RoHS exemptions as permitted under Annex III and IV, including those necessary for high-reliability electronics and specialized industrial or defense applications.

Celsia ensures RoHS compliance through:

- Supplier certifications and material declarations
- Material and process control at all stages of production
- Third-party laboratory testing as needed
- Strict internal quality management procedures

This declaration is based on supplier documentation, material testing (where applicable), and Celsia's internal compliance program.
